			AVERAGE ACROSS ALL CLASSES				

Sample comments from Student Instructional Ratings Surveys:***Social Justice & Diversity in Psychology (Psy 992)***

"I thoroughly enjoyed this class and feel like I grew both academically and personally as a result of taking it.

NiCole made every effort to make the environment a safe and supportive one and provided opportunities for us to reflect on the readings as well as our own experiences. Our periodic "debriefing" sessions in class were

immensely helpful to my understanding of both the course content and of how the content is relevant in our lives as both academics and citizens.”

“I really enjoyed this course. It provided a fairly unique space to really grapple with the complexities of social justice, and I feel incredibly grateful that NiCole fought to make that space available (and, in some cases, required). I got a lot out of the course and will really miss it now that the semester is over.”

Multicultural Psychology (493w/992)

“This is a memorable class that has challenged my perspective on life and has changed me as a person. Thank you for this opportunity.”

“I am graduating and feel lucky to have been a part of such a real course. This was a critical thinking, creative, and deeper level course. Also, the chance to film our own documentaries on injustice was a unique opportunity.”

“Dr. B was a joy to have as our prof. She was open in many ways in regard to opinions. I hope that MSU has the foresight to see that more classes like this are available to a majority of the students here.”

“This semester has proved to be more thought provoking in this class than I had expected...It amazes me that this class made me think so much. P.S. Thank you Dr. Buchanan for an awesome class!”

“Prof. Buchanan brings out topics that are in need of discussion. My perspective on the world has changed.”

Abnormal Psychology (Psy 280).

“She is so put together. Best psychology professor at MSU. Outstanding organization, easy to follow along. Makes a class that was easy to resist, for ego's sake, worthwhile and plausible to continue learning about.”

“I thought the professor was an excellent and knowledgeable speaker. She didn't need to look at her notes to explain concepts into great detail and use tons of modern day experiences for us to understand. She made the class really enjoyable”

“Dr. Buchanan is an excellent professor. She truly enjoys what she is teaching and stimulates an interest in the material in her students. I would highly recommend her to any student and have done so several times.”

“Dr. Buchanan is easily the best professor I've had at MSU. Her passion for psych is clearly evident in her teaching and always held my attention. Well done”

Child and Domestic Violence (Psy 316)

“Amazing class, I definitely enjoyed it and learned a lot from this course! I am so glad I took this course, thank you!” The class and the instructor were very organized and willing to help and share advice. The pace of the class in proportion to the level of work/instruction was appropriate to be able to not only complete the work but it was not so fast paced that it was a matter of getting the material completed at the sake of learning, analyzing, and applying the material. The instructor gave many real life examples and many varying aspects of domestic abuse and it's ramifications. The instruction was also on many levels from the child, survivor, batterer, social constructs, as well as from the service professional aspect. I enjoyed the class and it was a great learning experience.”

“This course was great. I felt that the amount of material covered each week was manageable and the lectures were very simple to follow. Overall, the content of this course was relatable and very applicable outside of the course.”

“This was a perfect amount of course work for a summer class. it kept me busy, but I was not completely overwhelmed. I also really enjoyed this class, and glad that MSU added this before I left. I have an internship at the court in Lansing in family division dealing with juveniles, and there are some dv cases, so this course was very beneficial to me for my internship as well. I liked the way she laid out the powerpoints because it was a good amount of information without being overwhelming.”
